Following a performance of the Lemanita Generation play evening, BYU President Dallin H. Oaks and Nikolayevich Smirnov, chairman of the Soviet Supreme Court, pose for photographers with members of the BYU performing group and other Soviet officials.

## Officials of Soviet court speak during visit to Y

by SCOTT HIGGINSON  
Universe Staff Writer

During a visit to the BYU campus by the chairman of the Soviet Supreme Court, an interpreter and several other officials, Smirnov's visit is the first of its kind. Smirnov came to meet with students and faculty as part of an exchange visit with the U.S. Supreme Court. While here, he was shown how computers are used in the U.S. legal system.

Traveling party consists of two members of the USSR Supreme Court, as well as the court's assistant chairman, an interpreter and several other officials. Smirnov's visit is comparable to that of the Justice of the United States, as members of Smirnov's party visited the U.S. Supreme Court and the city of Washington to Chicago and New York.

Smirnov's visit has its past experience as a prosecutor for the USSR when he was in the war trials following the death of J. Edgar Hoover. "I've seen a lot of the great deal of violence in the world and of human death," he said.

The last law was the results of the war, he said. "I've seen a lot of violence in the world and of human death," he said.

Smirnov cited his concern that there is a great deal of violence in the world and of human death. "I've seen a lot of violence in the world and of human death," he said.

Smirnov said that he was glad to see the progress of the world. "I've seen a lot of violence in the world and of human death," he said.

## Center to establish 'Office for Families'

CHICAGO (AP) — President Carter, declaring that the family unit is in trouble, told a Roman Catholic audience Monday that he is establishing an "Office for Families" in the Department of Health, Education and Welfare.

Speaking to the National Conference of Catholic Charities, the president called the family "one aspect of our national life, where a partnership of public and private interests is needed."

Carter also formally announced that the United States is pledging \$75 million "to help feed tens of thousands of starving human beings in Cambodia."

The money is to be funneled through the Red Cross and the United Nations Children's Fund.

The aid program was first disclosed by government sources last week. Sources said Carter originally had been scheduled to reveal the plan at a news conference last Tuesday, but delayed the announcement because of technical questions on distribution of the money.

After a two-hour stop in Kansas City, Carter traveled to Chicago for a fund raising reception. He planned to hold a "town meeting" Tuesday with the citizens of DeKalb, Ill., a Chicago suburb, before flying back to Washington.

**Families' foundation**  
In his speech to the Catholic Charities, Carter said the family is the foundation of a healthy and vibrant society. "But he added,"

"Today, what Pope John XXIII called 'the first and essential cell of human society' is in trouble. Many families have been strained to the breaking point by social and economic forces beyond their control. Some indeed have broken."

**Conference scheduled**  
Carter said three White House conferences on Families will be held next summer in Baltimore, Minneapolis and Los Angeles for a "long overdue

assessment of how active in government and major private institutions help, hurt or neglect American families."

Carter said the "Office for Families" in HEW is the first of its kind and will help implement the recommendations of the White House conferences.

White House press secretary Judy Powell, traveling with the president, said Carter planned to reveal the family theme in future speeches.

He called the address a continuation of Carter's assertion of a need for more family values, expressed in his

July 15 "crisis of confidence" speech. Powell and Carter received more than 100,000 pieces of mail, overwhelmingly positive, after the July speech.

He said it was the most mail received about a presidential speech in recent history.

The president also praised the Catholic Charities and made frequent reference in the recent visit of Pope John Paul II.

He called his meeting with the pope "one of the great privileges of my presidency."

## Seattle escape leaves one dead

SEATTLE (AP) — Police on Monday sought the sole remaining escaped prisoner in the aftermath of a jailbreak by seven inmates that left one inmate dead and a policeman and two getaway car drivers wounded.

The seven inmates used a gun to overpower their guards at the King County Jail, rode an elevator down from the 10th floor of the Seattle Public Safety Building and escaped into the streets of downtown Seattle about 9 p.m. Sunday, police sources said.

Police Capt. Patrick Fitzsimmons said Monday he was investigating the possibility that an organized racket or terrorist group helped engineer the escape.

"We're working on the possibility," he said at a news conference. "Apparently the break was well planned. They got a gun into the jail somehow and there were cars waiting."

The escape was made after one inmate somehow obtained a pistol.

Police spokesman Lee Libby speculated it was snatched up from the ground with a string through a window but another spokesman, Gary Flynn, said authorities don't know how the gun was obtained.

The inmate still sought was identified by Police Sgt. David Warner, 36, of Seattle, a convicted burglar.

One prisoner, Roger Raynor, was captured within 45 minutes of the breakout, including Fern Paritz, who Libby said, was bitten by a police dog during his capture.

Seattle police officer Frank Alexander was severely wounded by gunfire but he is expected to recover, Flynn said.

Two other men, William Crest and Jeffrey Pierce, who police said were driving the two getaway cars used in the breakout, also were wounded.

## Israeli protest police; elude evacuation troops

TEL AVIV, Israel (AP) — Ultra-nationalist Israeli students on campus on the occupied West Bank Monday played hide-and-seek with soldiers trying to end their protest against government settlement policy.

At nightfall the army and defense ministers had to have evacuated most of the approximately 20 campsites, but settlers in at least one camp refused to leave. Others jumped from one location to another to confuse troops approached.

"It's like a cat-and-mouse game," said Defense Minister Moshe Dayan Wednesday.

Nine of the demonstrators were arrested, and one shooting incident was reported when Moshe Shamir, a parliament member who supports the settlers' protest, refused to obey orders to leave the West Bank village of Jerusalem. A soldier fired one shot at him but he eluded the soldiers.

Shamir claimed he had the right to stay in the West Bank village.

anywhere as a member of parliament, but a senior military official, who asked not to be identified, said Shamir's behavior had been provocative and he was lucky that he had not been shot.

Some 2,000 Jewish settlers, including women and children, lived out of their West Bank villages before Monday, with tents and rough building materials to erect camps they called "footholds" (reports on the number of camps ranged from 8 to 40).

but it was by far the largest and best-orchestrated operation launched by the Gush Emunim settlement organization.

In recent weeks Gush Emunim, which means "Blessed Be the Faithful," had harassed the army by putting up a camp or two each week outside authorized settlements.

Monday's operation was a response to a cabinet decision Sunday against the expropriation of private Arab land for Jewish settlements.

NIKOLAYEVICH SMIRNOV calls for rectification of SALT II.

## Elder Richards to speak Tuesday

Today's 10 a.m. devotional assembly will feature Elder LeGrand Richards, a member of the Council of the Twelve and the oldest general authority of the LDS Church.

The 10 a.m. assembly in the Marriott Center is open to the public. Elder Richards' talk will be broadcast live over KBYU-FM radio and repeated Sunday at 9 a.m. It will be broadcast over KBYU-TV, Channel 11, three times: today at 8 p.m., Wednesday at 8 p.m., and Saturday at 9 p.m.

The LDS apostle was born in Farmington, Feb. 6, 1886, and has devoted more than 60 years of service to the church in positions of major responsibility.

He first served a mission to the Netherlands from 1905-1908. He has filled four presidencies and presided over two of them.

For 14 years, Elder Richards was the presiding bishop of the church. At the age of 68, he was ordained an apostle in

April, 1952, by President David O. McKay.

The apostle has written three LDS Church books, the best known of which are "A Marvelous Work and a Wonder," "The Atonement," and "The Plan of Salvation."

In the April Commencement of 1974, BYU awarded him an honorary Doctor of Christian Science degree. Elder Richards is the third apostle in direct family descent. His father was President George F. Richards of the Council of the Twelve and his grandfather was President John Taylor, who was also president of the Council of the Twelve. Elder Richards is also a member of Willard Richards, pioneer Elder, apostle and counselor to President Brigham Young.

In 1909, Elder Richards married Jane Richards, daughter of the Salt Lake Temple. She died Dec. 31, 1977. They have four daughters and two sons.

Muscle for the devotional will be provided by the BYU Male Chorus under the direction of Dr. Ralph Woodward.

It's that time of year again

Provo residents are getting out their rakes and brooms and taking to the lawns the old traditions during the yearly ritual of leaf removal. An unseasonably warm fall has

slowed the process somewhat, but because of a current cooling trend the leaves and the rains are beginning to come down.

# News Spotlight

## San Salvador's president fires

SAN SALVADOR, El Salvador — Army rebels fired four key military barracks Monday, forcing President Carlos Humberto Romero from office, disarming the army and rebel forces said. The rebels said they had killed one of the president's sons and one officer was reported slain.

The usually reliable diplomatic sources said Romero's departure from office was a commercial and political move for the United States with no military implications. No details on the flight were provided.

In Washington, State Department spokesman Steve Pittman said "we don't have confirmation on exactly what has happened," adding the department was in contact with contact of the U.S. Embassy in San Salvador, the capital.

A rebel spokesman said keys and several members of Romero's Cabinet, including Defense Secretary Gen. Federico Castillo Yanez and his deputy, Col. Jose Eduardo Irujo, left with him, but there was no official confirmation.

The spokesman said a major and two colonels, all rebels, led the coup against Romero, a rightist army general who was elected two years ago to a four-year term.

Earlier, a rebel spokesman, who asked anonymity, related to domestic and foreign rebels, but said they wanted to "seek a change in the structure of the armed forces and effect the changes that are necessary for the country."

A later statement said the rebellion "stabilized the situation in the country."

perial County and reports of broken glass and light fixtures down.

The Richter scale is a measure of ground motion as recorded on seismographs. Every increase of one number means a tenfold increase in magnitude. A reading of 7.5 reflects an earthquake 10 times stronger than one of a 6.5.

An earthquake of 6.5 on the Richter scale can cause slight damage in the local area, 4 moderate damage, 5 considerable damage, 6 severe damage. A reading of 7 is a "major" quake, 7.5 is a "great," capable of tremendous damage.

The great quake of San Francisco has been estimated at 8.5 on the Richter scale.

## Peau investigation finished

ATLANTA — Some long-awaited answers about Louis Armstrong's death were given Tuesday when President Paul J. Curran held a news conference to discuss his seven-month investigation.

Curran said he would meet with reporters in Washington at 11 a.m. EDT on Tuesday.

It will be his first extensive public comment since his appointment by then Attorney General Griffin Bell to examine any possible link between Armstrong's death and a bank robbery by Earl Lance and financing of Carter's 1976 presidential campaign.

Curran has said repeatedly that he would not discuss the substance of the probe until it was completed by then Attorney General Griffin Bell to examine any possible link between Armstrong's death and a bank robbery by Earl Lance and financing of Carter's 1976 presidential campaign.

Investigative lawyers and accountants working under Curran have inspected millions of records from the warehouse and National Bank of Georgia, which made nearly \$7 million in commissions and construction loans to Carter's campaign in 1975 and 1976.

## Congress rejects price control

WASHINGTON — Leaders of a "Campaign for Lower Prices" were disappointed when the House of Representatives rejected a bill to control prices of consumer goods Wednesday in 103 cities, but their bid to return oil and gas prices to a free market failed.

Even though heating oil prices have nearly doubled, the bill would have set a ceiling on the price of oil and gas. The bill would have set a ceiling on the price of oil and gas.

A series of pre-decided votes last week in the House, regarded the most sympathetic of the two chambers, rejected the bill.

The bill would have set a ceiling on the price of oil and gas. The bill would have set a ceiling on the price of oil and gas.

there seems to be little enthusiasm on either side for returning to the battlefield.

Standing a better chance of success is legislation being pushed by the Carter administration to provide about \$2.5 billion in additional federal assistance to help low-income households pay their fuel bills this winter.

## Afghanistan stirred by revolt

NEW DELHI, India — Tanks rolled through the streets of Kabul on Monday and warplanes struck targets 10 miles south of the capital city, according to reports from Kabul.

One theory advanced about the latest military activity was that the new government was preparing for a move against the C.A. Adam Wafar, an interior minister in the government that was overthrown last month.

But diplomats here said they were not sure who was involved in the latest military activity or what it meant. The State Department in Washington reported an air strike but also said it did not know where the forces were involved.

Radio Pakistan, monitored here, quoted Kabul reports as saying tanks rolled through the streets of the mid-high city, where security measures have been tightened.

"Kabul is calm but tense today," the broadcast said.

Added a diplomatic source who asked not to be identified: "Something is happening in Kabul but we don't have a clear picture yet."

Afghanistan has been wrecked by anti-government guerrilla forces since the summer. During that time, various military units reportedly have mutinied against the pro-Soviet governments.

## Auto workers to help Chrysler

HIGHLAND PARK, Mich. — United Auto Workers Union President Douglas A. Fraser said Monday the union would seek a "solidarity of action" with Chrysler Corp. workers.

Fraser said the union would support Chrysler's request for a 10 percent wage increase and a 10 percent productivity increase.

Speaking to reporters after the announcement, Fraser said he had told Chairman Lee Iacocca that concessions had to be made to cover "those not in the union."

As an example, Fraser said, "If a worker in our union is being laid off disproportionately — you can't tolerate that."

The UAW represents about 10,000 salaried workers at Chrysler, a little less than a third of the company's total employment.

Three where it represents substantial numbers of those workers.

## Deer hunting season opens this Saturday: gun sales increase

By STEVE CHRISTOPHER  
Staff Writer

Deer hunting season runs from Oct. 20 through Oct. 30 this year and many area sporting goods stores are already reporting an increase in business.

"It's bucks only this year," said Dennis Shirley, information specialist for the Utah Department of wildlife resources.

Hunters need to keep safety in mind at all times, Shirley said. Most hunting accidents result from violating safety precautions.

"Utah has a mandatory law stating that no one under 16 years old may receive a hunting license without taking a hunter safety class," Shirley said.

The class, he said, is important because hunting involves using a deadly weapon and it is necessary to make sure a hunter can handle a gun properly before being issued a license.

Shirley cited an accident in the past where a group of hunters were in a pickup. As one was jumping out of the back someone apparently attempted to shoot at a deer from the cab of the truck, and in the process shot and killed the man who jumped.

Hunters should be aware of laws regarding firearms and to kill a deer with no attempt to return it for food, to shoot anything other than a buck and to trap on public private property.

Violations of hunting laws, such as shooting do or leaving deer behind and taking the antlers, can result in a \$200 penalty with up to six months in jail as Class B misdemeanors. Hunting or poaching out of season can bring a \$1,000 penalty and up to a year in jail, Shirley said.

Shirley said approximately 200,000 hunters are expected to take to the hills this hunting season.

Shirley is also advising hunters to be aware of Kurt Wankler's recommendations for local sporting goods stores.

Sales of ammunition, guns and reloading supplies are high during the season, he said. From mid-October, such as hunting a hunting season with a \$5,000 fine and up to six months in jail as Class B misdemeanors. Hunting or poaching out of season can bring a \$1,000 penalty and up to a year in jail, Shirley said.

"It's directly related to the increase in hunting equipment sales," a worker said. "Sales of our hunting gear are up to six months in jail as Class B misdemeanors. Hunting or poaching out of season can bring a \$1,000 penalty and up to a year in jail, Shirley said."

Wankler said most hunters using equipment bought from their store are between 16 and 40 years old. Average hunting equipment is around 22 years old.

## One dead in California quake

CALIFORNIA, Calif. (AP) — A major earthquake toppled buildings in this border town Monday, leaving at least one person dead and several injured, authorities said.

The quake, which was felt as far north as Los Angeles, 150 miles from the epicenter.

The five-second quake was felt as far north as Los Angeles, 150 miles from the epicenter.

At Spring Valley, about 10 miles east of San Diego, a resident said his house was shaken to the point where he had to get out of the house.

California Highway Patrol Officer Wayne McElroy in El Centro, about 100 miles east of San Diego, said there was some damage to roads in In-

## License number, good description of suspect found

The search for the shooter of RVU student Pam Richmond has turned up the license number of the car used and several good descriptions of the suspect.

Police Lt. Gerald Nielson said of several clues they give police and the public.

Nielson said four young women who were also approached on Oct. 6 described the suspect, and one supplied a license number.

A motorist who saw the Richmond jump from the car on 145 was able to verify the license number was from Washington State, Nielson said.

The next step is to obtain the suspect's name from Washington police and a warrant issued for arrest.

Finding the right man may be difficult because Washington State law requires license holders to remain with the car, Nielson said. He indicated the suspect may have recently bought the car and not have registered it, causing difficulty tracing the man.

Once a warrant for arrest is issued it will be filed in the National Communications Information Center, a listing of major warrants, he said.

"Police across the nation will have information regarding the spot suspect," he said.

## Without football playoff

# determine collegiate champions

By CARL HAUPP  
& BRAD BOGAR  
University Sports Editors

The 1979 college football season is half over and all over the college football teams are seeking a shot at becoming the mythical national champion.

There is no official champion because although the National Collegiate Athletic Association holds 41 annual national championship playoffs in 18 sports for three consecutive years every year, it doesn't hold a national football tournament to determine the championship in Division I football. A controversy rages over how to determine the issue will likely go on forever.

With schools playing in Division I football, the idea of a national playoff system seems irrational to most members of the NCAA's governing body, but there is still pressure within the organization to institute such a program.

The NCAA's Extra Events Committee recommended last January that a four-team playoff be created. The NCAA Council referred the recommendation to the Division I steering committee, which voted unanimously against the proposal in June.

The NCAA gives several reasons for not instituting a playoff system. "While it would increase the pressure to produce a winner," with the establishment of a playoff system, "there would be higher and more clearly defined performance objectives. Violations could escalate dramatically," said the NCAA in the July 25 issue of its official newsletter. "The NCAA also contends students would miss an excellent opportunity of class work over the conflict of the biggest event in the sport." According to the NCAA, is a playoff system possible? The NCAA records, conference standings, statistics of game performances and bowl-game records are some of the current position playing a great deal of national exposure to Division I teams.

**15 Bowl Games**  
Fifteen postseason football games were approved by the NCAA last season. A 16th, the California Bowl, was approved by the National Pacific Coast Athletic Association and the Mid-American Conference beginning in December 1980.

One outspoken critic of a playoff is Wayne Duke, commissioner of the Big-10 Conference. In a letter to the "NCAA News" Duke attacked the idea of a national football playoff.

"I remain opposed to a football playoff not just because of the possible harm to established bowl games," said Duke. "It's a question of how to handle the many contenders. In football, you have a select few bowl games with ratings, the TV exposure and the bowl invitations. I feel that a football playoff at present would merely broaden the line of demarcation between the haves and have-nots."

The NCAA News received a letter expressing an opposing viewpoint from David H. Strack, director of athletics for the University of Arizona and chairman of the NCAA Extra Events Committee.

"I personally feel that two of the three reasons we (NCAA) mention for dampening a football playoff are suspect, unless you feel there is a great difference in the NCAA basketball championships and the proposed football playoffs. The four-team football playoff and the 46-team basketball tournament make for interesting comparisons. . . . The time involved with the football playoff would be eight days, with the championship game being played one week after the semifinal round. The 1980 basketball tournament is scheduled to begin on March 6 and conclude March 24.

Concerning the athletes missing class, "The football players would be conducting during the Christmas holidays, while the winter basketball tournament is conducted during the academic year. . . . The football players would miss more class time than the proposed plan would make the football players miss," said Strack.

**In lieu of a playoff**  
In lieu of a national playoff, coaches and players of Division I teams present several reasons for not instituting a playoff system. "The NCAA records, conference standings, statistics of game performances and bowl-game records are some of the current position playing a great deal of national exposure to Division I teams."

This season, USC has been ranked No. 1 in both polls despite a close game with Louisiana State in which the Tro-

jans came from behind in the last minute to win 21-17. Last week, the Trojans were tied by Stanford 21-21 and may lose their top position to Alabama or Texas.

The Associated Press ratings are decided weekly by a national panel of sportswriters and sportscasters. The United Press International ratings are selected by a panel of NCAA football coaches.

According to Joe Carmicelli, UPI's executive sports editor, the coaches "select the top 15 teams in the nation and forward their selections to our ratings editor in New York. The ratings are tabulated on a basis of 15 points for a first place vote down to one for a 15th selection."

The UPI board of coaches is composed of six coaches from each of the seven geographical regions in the country.

"Coaches are replaced when they change jobs," said Carmicelli. "We attempt to get the top people in the area and forward selections to our ratings editor in New York."

Carmicelli told the Daily Universe that the coaches' ratings are reviewed by UPI and if a coach's selections appear proper, we may speak with him about it. If the pattern continues, we reserve the right to drop the coach from the board."

The UPI rating system is approved by the American Football Coaches Association so UPI adheres to the rules imposed by the NCAA. Under this agreement, no school on NCAA probation is eligible for either a postseason bowl game or mention on the UPI Top 20.

Currently there are three schools who are on probation. Of these three, Auburn is nationally ranked in the AP poll.

Breaking down the UPI coaches board by conference affiliation, the board is made up of six coaches from the PAC-10; five each from the Big Eight, Southwestern conference, Southeastern conference and the Big 10; three each from the Western Athletic and the Eastern-eight conferences; four independents; and one each from six other conferences.

Because of the recent dismissal of Arizona State coach Frank Kush, he will be replaced as one of the voters from the PAC 10.

The Associated Press poll is based on the opinions of sportswriters and sportscasters and operates on a basis of popularity rather than conference.

The Associated Press voters from the independent are Desert News Sports Editor Les Benson and a

spokesman from Boise, Idaho. . . . Van Anderson, AP Sports Editor, said, "The AP pollsters agreed seeking to represent schools in this area to break into the poll."

## Cougars are 13 in AP grid poll

By The Associated Press

The Top Twenty teams in Associated Press college football records and total points. Points on Oct. 16-17: 16-15-14-13-12-11-10-9-8-7-6-5-4-3-2-1.

1. Alabama	4-0-0
2. Texas	4-0-0
3. Nebraska	5-0-0
4. So. California	5-0-0
5. Houston	5-0-0
6. Ohio State	5-0-0
7. Florida State	6-0-0
8. Alabama	4-1-0
9. Notre Dame	4-1-0
10. Arkansas	5-0-0
11. Michigan	5-1-0
12. Washington	5-1-0
13. Brigham Young	5-0-0
14. Auburn	4-1-0
15. North Carolina	5-1-0
16. Purdue	4-2-0
17. Pittsburgh	4-1-0
18. Tennessee	5-1-0
19. North Carolina	4-1-0
20. Navy	5-0-0

Paul "Bear" Bryant, left, and Chuck Fairbanks, two of the top coaches in the UPI Top 20, are among the 42 coaches on the UPI board who choose the UPI board of coaches.

## UPI BOARD OF COACHES

EAST: Frank Cignetti, West Virginia; Carmen Cozza, Yale, Frank Bruns, Rutgers; Jackie Sherrill, Pittsburgh; Frank Makney, Syracuse; Colquhoun, Northern Illinois.

MIDWEST: Jim Young, Purdue; Les Corso, Indiana; Dan Devine, Notre Dame; Earle Bruce, Ohio State; Darryl Rogers, Michigan State; Rick Venturi, Northwestern; Jeff Leach, Wisconsin.

SOUTH: Paul "Bear" Bryant, Alabama; Vince Dooley, Georgia; Charley Pell, Florida; Jim Carlen, South Carolina; Johnny Morris, Tennessee; Charlie McClendon, Kentucky.

MIDLANDS: Tom Osborne, Nebraska; Barry Switzer, Oklahoma; Warren Powers, Missouri; Jim Dickey, Kansas State; Rick Venturi, Northwestern; Jeff Leach, Wisconsin.

SOUTHWEST: Bill Yeoman, Houston; Ron Meyer, SMU; Grant Taff, Baylor; Jerry Moore, North Texas State; Fred Akers, Texas; Lou Holtz, Arizona.

MOUNTAINS: Frank Kush, Arizona State; Ken Hatfield, Air Force; Clark Arlanian, Colorado State; LaVell Edwards, Brigham Young; Chuck Fairbanks, Colorado; Wayne Howard, Utah.

PACIFIC: John Robinson, Southern California; Craig Fertig, Oregon State; Dave Currie, Long Beach State; Roger Theder, California; Don James, Washington; Troy Donahue, UCLA.

\*Frank Kush was dismissed by Arizona State on Saturday and Joe Carmicelli of UPI is expected to name a replacement this week.

## Ruggers win 9-6 in Logan

The BYU Rugby team

downed Utah State 9-6 Saturday in Logan.

BYU scored first on a drop kick by Sala Pongm and the Aggies scored a touchdown to put PSU in front 6-3. The Aggies came from behind on a touchdown by Alan Bagley with only eight minutes left in the match and Pongm added the conversion to give the victory to BYU.

## Howard says he likes despite mail received

By TED A. IZATT  
Universe Sports Writer

The University of Utah's football coach, Wayne Howard says he likes BYU even though he has a drawer full of hate letters from Cougar fans.

"I get a lot of hate mail," says Howard. "There are 300-400 letters in one drawer. I've received death threats and I've been called about everything but that can be said."

Death threats aside, Howard says he likes BYU and loves the rivalry. "I once said I hated the Y. But what I meant was that I wanted to beat the sophomores. Some people have misinterpreted my comments."

In three years with the Utah, Howard has taken the team from a 3-5 record in his first year to 8-3 mark last year. And this year he has taken the WAC with a 3-0 record and 4-3 overall.

"When I came to the University," Howard said, "the first year I just wanted to get a feel for the team, the second year was a contender in the WAC and the third year, we came to full power."

Howard says that point last year, Howard became the first coach in the University of Utah's football history

to win the Beehive Bowl, symbol of in-state grid supremacy. For the first time, the Utah players won three Utah schools and came away with a perfect 3-0 mark.

He was named Western Athletic Conference Coach of the Year for leading the Utes to an 8-3 season and taking second in the WAC with a 4-2 mark.

The mail service often defers methods of determining the national championship team. Depending on which method you believe in, last year's winner was either Alabama or the University of Southern California.

This season, USC has been ranked No. 1 in both polls despite a close game with Louisiana State in which the Tro-

jan was defeated. Howard says he likes BYU even though he has a drawer full of hate letters from Cougar fans.

Howard, who won the Beehive boot last year, said that he favors BYU in the Cougar's contest with Utah State last Saturday.

"I am fond of BYU," the mentor said. "I have a lot of respect for Coach Edwards and feel that we have a good relationship. Also, have a natural affinity for WAC teams."

"To win the WAC we need to beat BYU and San Diego State. I'm playing the Y. This year we'll have to put everything into it if we want to win again."

Last year, Howard became the first coach in the University of Utah's football history

# Y students win 3 in Security rally

Forty-two can participated in the first BYU Security-sponsored rally Saturday in the parking lot west of Cougar Stadium.

Winners of the seven classes were given trophies and second- and third-place finishers received certificates and ribbons.

Sgt. Rich Townsend, coordinator of the event, said he hoped the "combats" would become an annual event.

Three of the seven class winners were BYU students.

Winners of the gymkhana were a class, Gray Talley, C. class, Tom McClure, a communications major from Cedarburg, Ok., D. class, Mike Harsh, a psychology major from Aberdeen, Wash., F. class, Doug Salter, F. class, Randy Bertram, C. class, Dan Hegman, a student in general studies from Canby, Ore., and H. class, Ray Godfrey.

The best overall driver in the competition was Randy Bertram, the F. class winner. His course time was 55.76 seconds.

The auto event tested the driving skills of the participants by requiring them to drive through a set course with turns and straightaways marked by pylon cones. The drivers were not allowed to brake and were not allowed to dismount until they were through the turns.

The fastest car to complete the course without knocking down the cones or receiving other penalties won the class event.

The timing and scoring was handled by the BYU Sports Car Club.

A driver in the BYU Security car rally tests his driving skills by passing through a set course with turns and straightaways marked by pylon cones. Three of the seven class winners were BYU students.

# NOTICE OF SALE

Notice is hereby given that the undersigned will sell to the highest bidder on the 17th October 1979 at 10 a.m. at the Public Office located at 700 East 1400 North, Salt Lake County, Utah, the following property:

Said property is being sold to the highest bidder by the University Security Police in order to dispose of the same. The same have been made in my care of said property.

**Dwight Israelson**  
"The Soviet Economy: A Success or a Failure?"

Honors Program & ASBYU Academics

## President Oaks Supports Telefund

student development

I wholeheartedly endorse the Telefund, and hope that when you are contacted by telephone you will be as generous as your circumstances permit.

For those who desire a guideline, I suggest a gift of about \$1.25 for each month in residence at BYU. This would mean a contribution of \$5 per semester, or \$10, per year, per student. If this amount exceeds what any individual student feels is reasonable, I hope he or she will give some lesser amount, as appropriate.

Your support is important to Brigham Young University, and it is appreciated!

Sincerely,

*Dallin H. Oaks*  
Dallin H. Oaks

## Is the Woman's Place Really In the Home?
